Low Voltage Systems, Security/Video Surveillance Automation/Controls and Engineering

Do It Right The First Time.

LoVo SYSTEMS

LoVo specializes in the design and installation of a complete range of low voltage technology systems. Whether your needs are simple or complex, we'll work with you to design a solution that is right for you. From comprehensive security systems, with video surveillance, door access/access control, and fire alarms, to voice and data networks, fiber optic cabling, and audio/video systems, you can trust LoVo to design and implement a turnkey solution that's affordable and done right the first time.

LOW VOLTAGE SYSTEMS

Voice / Data / Fiber Cabling

- Voice / Data /Fiber Cabling
- Indoor / Outdoor
- Single / Multi-Mode
- Direct Burial / Arial
- Cat 5e / 6
- IDF / MDF Cleanup
- Certified Installation
- 100% Cable Testing
- Panduit Certified Installer

Fire Alarms

- Mass Notification
- Addressable Enterprise-class Systems
- Emergency Alarm Systems
- Horn and Strobe Notification
- Smoke and Heat Detectors
- Pull Stations
- Duct Detectors
- Monitoring of Sprinkler Systems
- Monitoring of Fire Alarm Panel

Wireless & Audio / Video Solutions

- Corporate Board / Conference Rooms
- Projectors and Screens
- Microphone Systems
- Paging / Intercom
- Background Music Systems
- Video Conferencing
- VOIP Systems
- Access Points
- Line or Non-Line of Sight
- Wireless Bridges
- Mesh Networks
- Cell Extenders

Systems Integration

- Industrial Automation, PLCs, SCADA Systems
- Environmental Monitoring/ Reporting/Compliance
- Energy Monitoring & Management
- Remote Web Access/Control
- Custom-Engineered Solutions

SECURITY / VIDEO SURVEILLANCE

Video Surveillance

- Video Analytics
- Remote Web Access
- Motion Activated
- Analog and / or IP
- PTZ via Mouse or Joystick
- Event Capable
- Scalable
- Rigid Environments
- Multi-Site / Enterprise Systems
- Open Architecture

Access Control

- Swipe, Keypad, Proximity and / or Biometric
- Integration with CCTV
- Gates / Turnstiles
- Scalable
- Rigid Environments
- Video Analytics
- Event Capable
- Multi-Site / Enterprise Systems
- Open Architecture
